

Six Senses' goal is #PlasticFree2022 and we need your help! Please try not to bring any single-use plastic to the island and refrain from wrapping your luggage.

We ask that any duty free bags, plastic bottles, batteries, or other waste you produce during your stay is taken home with you where you can properly recycle them.

If you don't have your own snorkeling kit, no worries! You can borrow a mask, snorkel, and fins from our dive center free of charge.

We have a down to earth philosophy, so you will find all of us barefoot. Feel free to leave your fancy shoes at home!

We provide complimentary shampoo, conditioner, shower gel, lotion, and aloe vera gel for your convenience, and we sell reef safe sunscreen in our boutique. Should you wish to bring your own, please only bring natural shower products with no micro beads and reef safe sunscreen.

If you can spare some room in your luggage, we would be grateful if you brought one of these items to Laamu to donate to a local child:

- stainless steel reusable water bottles
- cloth or canvas reusable bags
- snorkeling equipment (mask, snorkel, fins, goggles)
- marine books in English

Upon arrival, ask your GEM about joining us to donate your items at one of our local schools.
